

Applications:

*Used in various vacuum tire

Features:

*Makes seating the most difficult bead not only safe but simple, fast and economical

*Designed for commercial use on all tires from 4" to 24.5" sizes

*Operates in standard shop air. Max 120PSI

(Picture on the right is found on the internet)

Easy carry handle
for portability

Rust and corrosion-
resistant powder-coated
for durability

1/4" inlet shutoff
valve allows for
filling correct
amount of air

Pressure gauge makes it
easy to fill with the optimal
amount of air

Lip on the threaded
barrel for proper angel
for air insertion for
correct bead seating

1 1/2 ball valve quickly releases air
between bead and rim
Handle can be moved 90° in vertical
direction to open and shut the valve,
easier and more ergonomic

Capacity	5 gallon	Capacity	10 gallon
Body Dia.	9.4"	Body Dia.	12"
Total Length	18.5"	Total Length	21"
