

Gladhands & Accessories

Aluminum Hex Grip

The re-usable units are used to extend the life of the fitting to tubing connection on your coiled air sets. The ends of each of the red and blue coils screw into these ribbed grips allowing the driver to use these handles instead of pulling on the spring guards.

- HEX-GRIP Pack 1-Red & 1-Blue
- Helps prevent air line kinking at the fitting
 - One piece design
 - No screws or plastic parts
 - Easy to install aluminum HEX construction
 - Anodized coating provides corrosion-resistance

Hex design allows positive wrench leverage at both ends of handle

Gladhands

- Solid, one-piece construction
- Service and emergency gladhand color-coded for easy identification
- Color-coded seal
- Positive, spring loaded locking mechanism keeps gladhand properly positioned

Accessories

HD Grips

Thermo-elastomeric gladhand grips flex with air lines during tight turns providing the industries most advanced kink protection.

- Thicker at the fitting for kink protection during gladhand connections
- Added traction ridges for a no-slip grip
- Color-coded grip helps minimize incorrect tractor/trailer connections
- Reinforced, thicker rail at spring guard end of grip prevents tearing and improves kink resistance

Safety Lock

- The lock is very effective in preventing the unwanted connection of tractor trailers
- Great for protecting out of service units
- Each lock is supplied with two keys
- Made of glass filled nylon

Seal

Made to fit all SAE compliant gladhands
