

JIH Glacier Air Coils include an extra layer of protective polyurethane increasing the wall thickness of the tubing and providing superior kink resistance, coil memory and wear resistance.  
 12"/15"/20' Coils with leads of 12"/20"/24"/40"/48"/72" are available.

### Heavy Duty Version

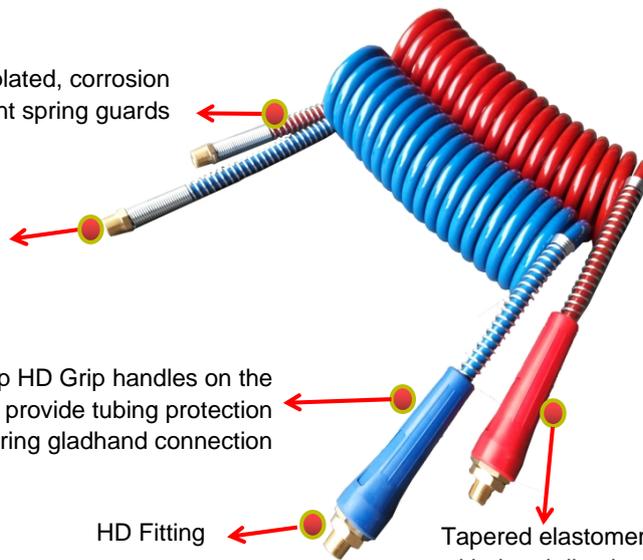

Swivel fittings on the tractor end for ease of installation

Heavy duty plated, corrosion resistant spring guards

Easy to grasp HD Grip handles on the trailer leads provide tubing protection during gladhand connection

HD Fitting

Tapered elastomeric handle flexes with the air line in tight turns.

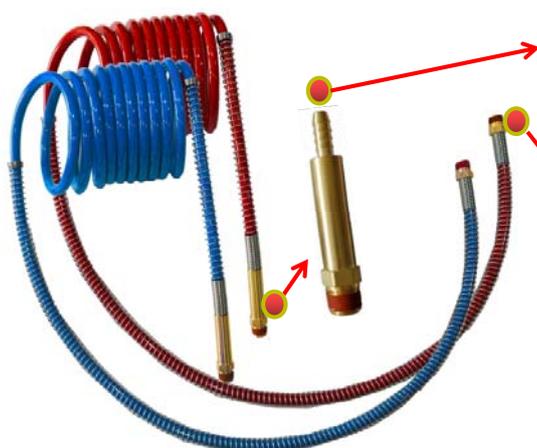

### Integrated Brass Handle Version

Integrated brass handle at trailer side allows for easier coupling and uncoupling of gladhands

Permanently swaged 1/2-14 NPTF end fittings with thread sealer simplifies assembly

Applications: Connect the tractor and Trailer hook up ( Long lead end to tractor and short lead end to trailer)

#### Features:

- Material: PA12
- Each set contains a blue service line and a red emergency line
- Working pressure: Up to 150PSI
- Remains flexible at -85° F(-65° C)
- Exceeds FMVSS 106 and SAEJ844
- Excellent for cold weather
- Excellent coil memory and durability
