

#### Features:

- Split loom permits easy insertion and repair of wire, tubing, cable, etc.
- Meets FMVSS 302 requirements
- RoHS, REACH, Halogen free

#### Material: Polypropylene (PP)

##### Features:

-Oil-resistant, acid-base resistant, excellent chemical corrosion resistance, low strength, lack of softness, tarnished surface

##### Applications:

Machine building, chemical equipment, Car wire harness

##### Temperature:

#### Material: Polyamide (PA6)

##### Features:

- Soft and tough, friction resistant, twist resistant, high mechanical strength, resistance to oil, alkali, weak acid, etc., good self-extinguishing

Applications: Mechanical building, electric insulation protection, underground, electric vehicle and air-conditioner equipment etc

##### Temperature:

-40° F to 300° F (-40° C to 150° C)

#### Material: Polyethylene( PE)

##### Features:

- Oil resistant, flexible, low rigidity, glossy surface

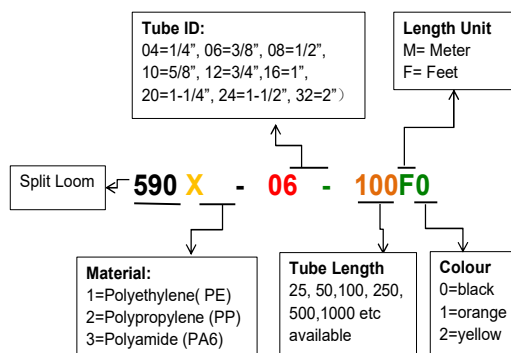

##### Applications:

Machine building, electric equipment, electric

control cupboard, car wire harness

##### Temperature:

#### How to order :

#### JUST IN HARDWARE CO.,LTD

Add: Wuxi , China/Tainan, Taiwan
